

How to mirror your device on the BenQBoard using AirPlay

Getting ready

1. Ensure that **InstaShare** is installed on your BenQBoard. You can download it from the **BenQ Store**.
2. Ensure that your BenQBoard and your personal device are connected to the **same Wi-Fi network**.

3. Open InstaShare on your BenQBoard.

Mirroring your device

iOS

Open **Control Center**, tap **Screen Mirroring**, and then tap your display from the list.

macOS

Click the AirPlay button  and then select your display from the list.

Tips & tricks

- You can control who can mirror their device on the BenQBoard by enabling the **Confirm before mirroring** setting on InstaShare. Just open the app on your BenQBoard and go to Settings .
- If you want **two-way touch** capabilities and control the BenQBoard from your device, you can scan the QR code below to download and install the **InstaShare app**.

iOS

macOS

- If you have any concerns regarding InstaShare, please reach out to your school's IT admin.
